Philada, Feb'y 13. 1886

Hon. Dan'l M. Fox
Supt. U.S. Mint.
Dear Sir:

In answer to the enquiries contained in your letter of yesterday, respectfully state that the Revolvers in the Armory of the U.S. Mint, are in My opinion unsuitable for ready and effective use, being of large size and very clumsy, cannot be carried on the person with convenience or used with the quickness that sudden emergencies might require. The Eight of the Starr patent, are in fair condition, the Colt, is acid eaten and the One of the Pepper box pattern is unfit for use. We have no ammunition for the latter, while that for the others is paper cased, and there is no certainty in regards to its condition. In conclusion beg leave to suggest, that Considering the Number of Men in the Night Watch (sixteen) Eight Revolvers, is hardly enough

Very respectfully
H H Banks
Capt. Night Watch

Hon. Danl. M. Fox
Supt. U.S. Mint,

Dear Sir:

In answer to the enquiries contained in your letter of yesterday, respectfully state that the Revolvers in the Armory of the U.S. Mint, are in my opinion unsuitable for ready and effective use, being of large size and very clumsy, cannot be carried on the person with convenience or used with the quickness that sudden emergencies might require. The Eight, of the Starr patent, are in fair condition, the Colt, is acid eaten and the one of the Pepper box pattern is unfit for use. We have no ammunition for the latter, while that for the others is paper cased, and there is no certainty in regards to its condition. In conclusion beg leave to suggest that considering the number of men in the night watch (Sixteen) – Eight Revolvers, is hardly enough.

Very respectfully
M.H. Banks
Capt. Night Watch
